## Internationale Spedition

The name TTM stands for Transport Team Mannheim and is a reflection of the team spirit of our business.

More than 160 employees now work hard to achieve maximum productivity and quality of service.

The haulage firm TTM GmbH now based in Edingen-Neckarhausen was established on 2.10.1994 in Mannheim. The opening of the branch in Halle-Leipzig with direct access to the A14 motorway provided the firm with rapid access to the Halle-Leipzig airport hub as well as the regions of Eastern Europe.

Our approach to business has been, and is, based upon our commitment to our customers and the quality of our logistical services. Our experienced and highly-motivated staff enable us to satisfy the specific requests made by our customers. Our performance is impressive.

We have the following transhipment and warehousing facilities available for short-term and long-term storage:

- ✓ 40.000 m<sup>2</sup> at our Mannheim site
- ✓ 10.000 m<sup>2</sup> covered space and sufficient outdoor space at our Halle/Leipzig site
- ✓ 12.500 m<sup>2</sup> various external storage space on sites located in Berlin, Hamburg and Schleswig.

## TRUCK TRANSPORT WITHIN GERMANY

**Reliable, efficient and can be planned**

There are many roads in Germany. We know the best ones to take. You can rely upon TTM to transport your goods to their destination: quickly, reliably and properly. To achieve this we offer our full range of services from system goods transport to part loads up to full loads throughout Germany.

With our modern fleet of vehicles and our intelligent fleet management system we always guarantee our customers that we will have freight capacity available and that we are able to provide trucks even at short notice.

Using state-of-the-art equipment, tried and tested systems, and professional handling methods, we guarantee that our customers can rely upon their goods being delivered on time.

# INTERNATIONAL TRUCK TRANSPORT

## General cargo, Part and Full loads!

It is all the same whether you want us to transport palletised goods, returnable containers or hazardous goods, we can transport goods of any type. It is immaterial whether you would like to transport just a single pallet-load or a full truck-load, we will submit a fair quote backed up with an excellent level of service and above-average know-how.

### ✓ TTM system goods transport

We offer our customers daily general cargo loads to virtually all countries within Europe. In doing so, our services focus upon cost-efficiency, speed and safe handling.

### ✓ Part and Full loads

TTM is a leader in overland transport within Europe. Consequently we know how important it is to our customers that we deliver their consignments on time. Our special equipment ensures that we have the flexibility to cope with all sorts of loads in the shortest possible time.

### ✓ Heavy and special transport

We offer bespoke solutions for our customers with special loads. In such cases we rely upon our specialist equipment and the decades of experience brought to bear by our staff.

### ✓ Transport of hazardous goods

Handling hazardous goods requires specific expertise. Our trained staff will assist you and answer any questions you may have, and come up with solutions, regarding hazardous goods.

# THERMO AND REFRIGERATED TRANSPORTATION

Your goods will arrive in good condition with us!

When handling temperature-sensitive goods, it is absolutely essential that there are no breaks in the refrigeration chain. Thanks to our special TTM refrigeration logistics system, even sensitive goods are safe with us and will arrive in perfect condition at their destination.

In particular, when food stuffs such as fruit and vegetables, meat and meat-based products and even pharmaceutical products are transported, they must comply with temperatures set down in internal and public guidelines. By having state-of-the-art equipment we are able to guarantee our customers the highest quality standards at all times.

## ✓ Refrigerated transportation

TTM offers refrigerated transport throughout Europe for fresh food or frozen products so that goods can be carried at temperatures as low as -25° C.

## ✓ Thermo transportation

In particular when foodstuffs such as fruit and vegetables, meat and meat-based products and even pharmaceutical products are transported, they must comply with temperatures set down in internal and public guidelines. By having state-of-the-art equipment we are able to guarantee our customers the highest quality standards at all times.

## ✓ Double-decker transportation

Customers often benefit from considerable advantages in having their consignments transported in double-decker containers. This allows twice as many pallets to be transported in a single container.

## ✓ Delivery throughout Europe

Regardless of whether your consignment is to be delivered to a destination within Germany or anywhere in Europe, we shall always come up with the right solution for you. With our short delivery times and maximum flexibility, you cannot go wrong with us!

# TRADE FAIR, EXHIBITION AND EVENT LOGISTICS

Bespoke solutions and tailored support!

Logistics in the trade fair and events sector always depends upon perfect timing, professional co-ordination and an open channel of communication with your contact on site.

We can transport everything you need to make your event successful. It is all the same whether it is a sporting event or public event, trade fair display, theatrical or musical venue, media event or congresses – you are in the very best of hands with us.

You can rely upon TTM GmbH Internationale Spedition to transport your goods safely to trade fairs or events anywhere in the world.

We assume responsibility for all handling on-site, directing it to the trade fair stand and assembling your display there. Our trained staff will always be there on site to assist you.

Our services focus upon punctuality, reliability and security.

TRANSPORT

Once your event has ended, we take care of the dismantling your goods and returning them to your stated destination.

RETURN

## AIRFREIGHT - TAKE OFF WITH US

Are speed and safety important to you?

Airfreight is becoming increasingly significant as a result of progressive economic globalisation. TTM GmbH is an expert in airfreight and sea-freight. You can rely upon us.

You can rely upon us, since we guarantee that we will transport your goods by airfreight quickly and safely to the highest quality standards. When contracting us you benefit from our expertise in logistics and operations, enabling us to plan, co-ordinate and schedule your just-in-time transport systems to meet tight deadlines

### ✓ Direct transport

We offer daily flights to all important business centres throughout the world for customers with urgent consignments. We ensure that goods are collected from you promptly, are processed rapidly at the airport and that customs duty is paid in the destination country.

### ✓ TTM Charters

Our TTM charter programme is specially geared for customers having oversize and heavy consignments for which delivery-times have been guaranteed by the customer to the consignee or if a customer has large volume consignments. Upon request, we are able to charter cargo planes to fly to virtually all airports throughout the world.

### ✓ Consolidated freight

Our TTM airfreight consolidations are cost-efficient solutions for urgent consignments. We consolidate goods in our airfreight gateways and thereby reduce handling and cut costs while maintaining high levels of security at the same time.

CONSOLIDATED FREIGHT

### ✓ TTM Abnormal loads

We come up with bespoke solutions for our customers having non-standard cargo. This means that we can arrange for on-board couriers to accompany extremely urgent consignments of valuable goods from door-to-door.

CHARTER PROGRAMME

# SEAFREIGHT – WORLDWIDE

**Set sail with us!**

Gateway to the world and key to your success. We bring your markets even closer together with TTM Seefracht. Transparent and economic and to the point. Regardless of whether your priority is the level of service you need, cutting costs or saving time.

We can provide containers just when you need them. Our services cover distribution, the payment of customs duties, taking out transit insurance, and are backed by business relationships with selected shipping firms over many years. Collectively, these factors enable TTM Seefracht to offer an all-round package.

**TTM PACKAGE SOLUTION**

You can satisfy all your needs from a single source with the TTM package solution.

With our combined transport solutions covering different modes of transport we ensure maximum flexibility, regardless of whether you wish to send your goods by air, sea or road.

## ✓ TTM container transport (FCL)

Container transport is the secure and efficient solution for our customers. As a result of having business relationships with selected shipping firms, working together over many years, we can guarantee regular departures to destinations all over the world.

## ✓ TTM Consolidated freight (LCL)

Consignments of general cargo are also kept under control at all times with our consolidated freight services. We provide our customers with maximum security and service quality.

## ✓ TTM Break-Bulk Carrier

We can provide special purpose break-bulk containers for transporting your heavy load consignments anywhere in the world. This means that our customers can always rely upon benefiting from state-of-the-art equipment and the correct packing.

## COURIER SERVICES AND SPECIAL TRIPS

**When express delivery is not quick enough!**

When it has to arrive quicker than express delivery TTM GmbH Internationale Spedition has just the right solution for you. We not only take over door-to-door deliveries for you, but consignments which have to be delivered rapidly.

We shall collect your consignment from any address in Germany or Europe within two hours at the most and deliver it direct to the consignee. Our innovative logistics management system supports rapid deliveries and guarantees that we never miss a deadline: this provides us with maximum flexibility.

### ✓ TTM vehicle fleet

It makes a difference having our own fleet of vehicles. By having a large number of vehicles of different types selected to be used in co-ordination with each other, we can guarantee that we have just the right vehicle for your consignment.

### ✓ Transportation of hazardous goods

Specialist knowledge is required when handling hazardous goods. Our trained staff will provide you with all-round support in response to your queries about hazardous goods.

### ✓ Germany and throughout Europe

Regardless of whether your consignment is an import, export or if its journey both begins and ends within Germany, we shall look after your consignment for the whole journey beginning with collection from the consignor until delivery to the consignee.

### ✓ IT solutions

We ensure that consignment-handling throughout transportation will be smooth and that we can locate our vehicles at all times by applying our intelligent IT solutions.

## HEAVY AND ABNORMAL LOADS

Large, heavy and more complex!

Many years of experience and the references acquired by our project specialists guarantee that we can be relied upon to transport heavy and abnormal loads of all types anywhere in the world without any problems. Each project has its peculiarities and necessities well thought-out transport planning and the right mode of transport.

Be it on land, by water or by air, we are very well versed in the transport options available and take on overall planning as well as pre-carriage and onward carriage to the destination with special-purpose vehicles.

**With the good contacts we have with the authorities, we can take on the application for, and chase up, licences and shipping documents.**

MULTIMODAL

We specialise in multimodal transport with different modes of transport. We also take care of viability reviews.

PACKING

We can plan and look after the right packing for your goods. In doing so, we concentrate on providing maximum security and safety throughout all stages of transportation.

# STORAGE AND DISTRIBUTION LOGISTICS

Are your ambitions high?

TTM offers its clients flexible and bespoke warehousing solutions and helps you by developing outsourcing projects. We design and carry out these projects to satisfy your specific requirements for the price you have in mind. In doing so, we focus upon providing the right and reliable storage solution for your goods to ensure that they are safe.

For many years we have invested constantly in the expansion and maintenance of our storage facilities. With more than 60,000 m<sup>2</sup> of storage space we are very well prepared for handling your project, and to be more precise, we can offer this level of service at a number of locations throughout Germany.

## ✓ Order picking and packing

TTM can take over order-based order picking and pack your goods as required. Our services also include the preparation of respective documents such as delivery notes, for example.

## ✓ Value added services

We offer extra sector-specific services such as labelling, pre-assembly of plant parts the return of empty containers or the proper disposal of waste materials, for example.

## ✓ IT solutions

By having our own intelligent IT solutions and our own goods handling systems we are always able to ensure that we have an up-to-date status overview for the respective consignments.

## MANKIND AND THE ENVIRONMENT

### Green logistics!

TTM has anchored environmental considerations firmly in its business strategy and takes specific steps to implement them:

- ✓ The TTM Fuhrpark GmbH truck fleet satisfies the latest ecological directives (EURO 6 engines / use of AdBlue additive) and on average vehicles are less than four years old.
- ✓ With satellite-based and efficient logistics management we keep the number of miles travelled by our trucks without a load as low as possible. As a result of this we are making a significant contribution to reducing our fleet CO<sub>2</sub> emissions.
- ✓ Solar panel systems mounted on the roof of our building (Electricity generated is fed into the grid)
- ✓ Green logistics in the part and full load general cargo system

## SPORT SPONSORING

### Passion!

Sport generates enthusiasm, provides role models and promotes teamwork. It stands for partnerships, excellence, responsibility and innovation. These are values put to use every day at TTM.

### Sport is passion and allows us to cross borders.

Our responsible approach to doing business is extended to regional level as well. As a reflection of our region, that is Rhine-Neckar, TTM GmbH Internationale Spedition is committed to society and sponsors sport.

Amongst other things we support the following clubs, projects and sportsmen:

- ✓ Rhein-Neckar Löwen (First Bundesliga) and HG Oftersheim/Schwetzingen (Third Handball league)
- ✓ Martin Kirchöfer (Budding German racing driver in the GP 2 series) – motorsport
- ✓ 100. CSIO Showjumping tournament in Mannheim (2015)

HANDBALL

SHOWJUMPING

MOTORSPORT

## SOCIAL RESPONSIBILITY

### Commitment in the right places!

As a company with global reach, it is therefore expected of us that we make an active contribution to improve the living conditions of others who are not benefiting from globalisation to the same extent as we are.

### Logistics brings people, markets, and production worlds closer together.

Therefore every year we support different organisations, foundations and associations, such as, for example:

- ✓ FV Kinderhospiz Sterntaler e.V.
- ✓ Spine Alliance e.V.
- ✓ World Vision Deutschland e.V. - sponsorship of two children
- ✓ Kinderwelten e.V.
- ✓ Deutsche Lebensbrücke e.V. - Campaign supporting children with leukaemia
- ✓ Aufwind Mannheim e.V.
